**Eric Holcomb, Governor**  
**Michael Smith, Commissioner**

**TO:** REAL ESTATE DIVISION, INDOT  
**FROM:** RON BALES, ENVIRONMENTAL POLICY MANAGER, INDOT  
**SUBJECT:** STATE CATEGORICALLY EXEMPTED PROJECT, LA 5199, PARCELS 11, 12, 15 (EXCESS PARCEL)  
**DATE:** FEBRUARY 23, 2021

## ENVIRONMENTAL CLEARANCE OF STATE FUNDED EXEMPTED PROJECTS

Under Indiana code IC 13-12-4-5, the Indiana Department of Transportation has determined certain types of projects to be exempt from the State Environmental Policy Act requirements outlined in 327 IAC 11. As this project has been determined to be excluded from the National Environmental Policy Act (NEPA) requirements outlined in 40 CFR 1502.22 (b) it meets the requirements of the State Environmental Policy Act. As long as funding, approval, and permitting requirements remain the same as reported on this form, at letting this project is exempted under 327 IAC 11-1-3, sec. 3. (e) (1). The following table demonstrates the exemptions agreed upon by the Indiana Department of Environmental Management and the Governor of the State of Indiana in accordance with 327 IAC 11, and under the authority of IC 13-12-4 and 13-14-8.

### SCOPE OF WORK

INDOT and IDOA recognize that state-owned excess right-of-way exists at various locations throughout the state. This land provides no function to the state highway system in terms of serviceability or maintenance, and prohibits development of the property for productive use for residential, commercial, agricultural, or other private or public use.

Additionally, state-ownership of land may reduce the availability of real estate that is subject to property taxation; revenue which could benefit the community. Selling such excess parcels of land would benefit the above causes, as well as providing the potential for additional revenue to the state from the proceeds of the sale.

Parcels 11 and 15 and northwest of the intersection of SR 25 and W CR 200 N and Parcel 12 is northeast of the intersection of SR 25 and W CR 200 N in Carroll County, Indiana. Parcels 11, 12, and 15 totals approximately 2.0 acres combined.

### Statements of Disclosure:

One (1) wetland line is located adjacent to the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

One (1) UNT to Bridge Creek is located within the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

One (1) wetland is located within the northern extent of Parcel 11 and in the southwestern extent of Parcel 15. No impact is expected; however, potential buyers should be informed.

Above-Ground Summary: With regard to above-ground resources, no buildings or structures are located on Parcels 12 or 15. Utility lines and poles, and/or wire fencing are all that appear to possibly be present on the parcels. These parcels are located wholly within the Area of Potential Effect (APE) for the Hoosier Heartland Highway project (Des. No. 9802920). As can be seen from the attached mapping and pertinent pages of Section 106 documents for the project, the identification efforts and resultant reports for the Hoosier Heartland Section 106 process did not identify any National Register-eligible or listed properties on these parcels. The National Register-listed Deer Creek Valley Rural Historic District is located approximately 0.75 mile to the northeast of the parcels. The National Register-listed Baum-Shaeffer Farm (NR-1363; IHSSI #015-162-30035) at 6678 W CR 200 N is located approximately 0.2

mile to the southwest of the parcels on the opposite side of the road. The sale of the parcels should have no direct impacts to the farm or the historic district. INDOT-CRO does not think that any further work is needed with regard to above-ground resources.

Archaeology Summary: With regards to archaeology, excess parcels 5199-12 and 15 were investigated by an addendum reconnaissance for SR 25 Hoosier Heartland (Bennett and Plunkett 2004). The parcels were either shovel probed or visually inspected due to sloping terrain and no archaeological sites were identified within either parcel. SHPO concurred with the results of the survey in a letter dated March 9, 2005. According to SHAARD GIS, no new sites have been recorded within or adjacent to the parcels since the 2004 investigation. It is therefore recommended that the sale of excess parcels 5199-12 and 15 be allowed to proceed without additional archaeological study.

SHPO concurred on July 27, 2020.

Check all that apply	Exemption number	Project type
	1	Pipe culvert replacement
	2	Bridge painting
	3	Mowing
	4	Installation, modernization or maintenance of signs, traffic signals, pavement markings, highway lighting, and channelization within the existing right-of-way
	5	Patching and crack sealing of roadway surfaces
	6	Resurfacing existing pavement
	7	Guardrail and fence installation or repairs
X	10	Right-of-way abstracting, engineering appraising, property management and administration
	11	Landscaping and erosion control
	12	Safety projects such as pavement grooving, flare screen, safety barriers, and energy attenuators
	13	Addition or reconstruction of railroad crossing protection
	15	Reconstruction or replacement of an existing bridge crossing a stream, railroad, or roadway
	16	Addition of special facilities to an existing highway for the exclusive use of buses
	17	Slide correction measures which are not emergencies but are necessary to preserve the highway facility
	18	Modernization of an existing highway by widening less than a single line (sic.) width, adding shoulders, adding auxiliary lanes for climbing, turning or weaving, and correcting substandard curves and intersections

(Please check all that apply)

  X   This project is to receive no federal funding, permits, approval that would lead to NEPA requirements.

  X   This project does not qualify as a "Major state action as defined under 327 IAC 11-3-4.

  X   Furthermore, this action fails to meet the definition of "Significantly affecting the quality of the human environment" as defined in 327 IAC 11-3-6.

These conclusions were ascertained by a study of the work type (as listed above) and the accompanying documentation.

  X   INDOT approved Red Flag Investigation

  X   Historical/Archeological Survey

  X   Other

I have reviewed the documented information and attest to the validity of this exemption based on current knowledge of the project and the existing known environment. Pursuant to 327 IAC 11-3-4, this exemption does not qualify as a "Major state action" and does not significantly affect the quality of the human environment. Therefore, the Responsible Official for INDOT, as defined in 327 IAC 11-3-5, does not need to approve this exemption.

Re: INDOT disposal of excess parcels #12 and 15 located in Section 28, Township 25 North, Range 2 West  
associated within SR 25 Hoosier Heartland (LA Code 5199; DHPA 25961)

Dear Ms. Kennedy:

Pursuant to Indiana Code 14-21-1-14, the Indiana Department of Natural Resources, Division of Historic Preservation and Archaeology (“INDNR-DHPA”) has reviewed your review request submittal form, within enclosures, dated and received June 29, 2020 for the above indicated project in Deer Creek Township, Carroll County, Indiana.

Based on the information you provided, it does not appear that Excess Parcels # 12 and 15, located on the east and west sides of SR 25, north of W 200 N, contains a structure that could be eligible for inclusion in the National Register of Historic Places (“NRHP”) or the Indiana Register of Historic Sites and Structures (“IRHSS”).

Additionally, based on the documentation available to INDNR-DHPA, we have not identified any currently known archaeological resources listed or eligible for inclusion in the NRHP or IRHSS within Excess Parcels #12 and 15. We understand that the parcels have already been subjected to archaeological reconnaissance as part of the SR 25 Hoosier Heartland project (Bennett and Plunkett 2004) and no archaeological sites were documented within Excess Parcels # 12 and 15. No additional archaeological work is required.

Accordingly, we do not believe that Excess Parcels #12 and 15, LA Code 5199, in Deer Creek Township, Carroll County, contains a historic site or historic structure.

If any archaeological artifacts, features, or human remains are uncovered during construction, state law (Indiana Code 14-21-1-27 & 29) requires that the discovery must be reported to INDNR-DHPA within two (2) business days. In that event, please call (317) 232-1646.

If you have further questions regarding this determination, please contact our office. Questions about archaeological issues should be directed to Rachel Sharkey at (317) 232-5254 or rsharkey@dnr.IN.gov. Questions about historic buildings or structures pertaining to this project should be directed to Danielle Kauffmann at (317) 232-0582 or dkauffmann@dnr.IN.gov. Additionally, in all future correspondence regarding the above indicated project, please refer to DHPA No. 25961.

Very truly yours,

Beth K. McCord

Re: Revised phase Ia archaeological field reconnaissance report (Bennett & Plunkett 12/04) for portion of the SR 25 Hoosier Heartland Corridor (NH-071-5 [010]; Designation #9802920)

Dear Mr. Plunkett:

Pursuant to Section 106 of the National Historic Preservation Act (16 U.S.C. § 470f) and 36 C.F.R. Part 800, the staff of the Indiana State Historic Preservation Officer ("Indiana SHPO") has conducted an analysis of the materials dated January 27, 2005, and received on February 1, 2005, for the above indicated project in Cass, Carroll, and Tippecanoe Counties, Indiana.

Thank you for providing the revised archaeological field reconnaissance for the above indicated project. In our review letter of 2001, for this proposed project, we concurred with the conclusions and recommendations of the original archaeological report.

*A copy of the revised 36 C.F.R. Part 800 that went into effect on August 5, 2004, may be found on the Internet at [www.achp.gov](http://www.achp.gov) for your reference. If you have questions about our comments, please call our office at (317) 232-1646. Questions about archaeological issues should be directed to Dr. Rick Jones or Christopher Koepfel.*

Be advised that John R. Goss no longer holds the title of Indiana SHPO. As of February 21, 2005, Kyle J. Hupfer, who was appointed by the Governor Daniels, became the new Indiana SHPO.

Very truly yours,

*fn* Jon C. Smith

Re: State Road 25/Hoosier Heartland Corridor

Dear Mr. Baxter:

At the invitation of David E. Smith, P.E., of Qk4, the Indiana Department of Transportation's consultant on the State Road 25/Hoosier Heartland Corridor Project, we are commenting on the proposed findings of effect on specific historical or architectural properties that were issued in the enclosures to Mr. Smith's March 7, 2002, letter. As you know, those proposed findings were explained, discussed, and, in one instance, modified at the March 21, 2002, Section 106 consulting parties meeting in Delphi. In addition, John Carr of my staff has had subsequent communications with Mr. Smith, in which Mr. Smith clarified certain points about scales and dimensions and about existing stands of trees shown or described in various documents associated with the project.

In general, we concur with the proposed findings of effect as stated in the enclosure Mr. Smith's March 7 letter entitled "Addendum: Assessment of Effects," except as discussed below.

At the March 21 meeting, Mr. Carr understood Camille Fife of The Westerly Group, the historical sub-consultant on this project, to say that she thought that the proposed no adverse effect finding regarding visual impacts of the proposed highway on the Deer Creek area rural historic district should be changed to a possible adverse effect finding. The Qk4 March 28 minutes of the March 21 meeting appear to confirm this change of opinion, although in less specific terms.

We believe that a finding of adverse effect would be more appropriate regarding visual impacts on the National Register-eligible Deer Creek area historic district. Based on site visits by my staff, it appears to us that significant stretches of the proposed highway would be visible from well within the district, as the highway passes to the west and northwest of the district. It is true that such modern buildings and structures as the single-story, mini-warehouse buildings that lie immediately adjacent to the western boundary of the district and the modern commercial buildings, grain storage structures, grain piles, and the water tower that lie somewhat farther to the west and northwest of the district already partially obscure the view of the horizon from various points within the district. We further would expect, given what we have been told to this point about the design and elevation of the new highway, that those existing buildings and structures would partially obscure the view of the new highway as it passes to the west and northwest. Even so, much of the horizon to the west and northwest is still visible in the form of tree lines standing at varying distances from the district. It appears to us that the new highway, much of which would be elevated as it passes the west and northwest parts of the district, would demonstrably obscure considerably more of the horizon than has already been obscured. The report entitled "Review of a Rural Historic District in Deer Creek Township, Carroll County, Indiana" (The Westerly Group, Inc., February 9, 2001) indicates that among the significant qualities of this rural historic district is its agrarian and bucolic feeling. Given this, we think the likelihood that the new

John R. Baxter, P.E.  
April 18, 2002  
Page 2

highway would diminish the integrity of the agrarian and bucolic feeling and setting around the district merits a finding that the project would have an adverse effect on the district from a visual standpoint.

We hasten to add, however, that the latest, proposed alignment to the west and northwest of the Deer Creek area rural historic district is a significant improvement over previous proposals for alignments on that side, which would have virtually hugged the district's western boundary and, in the case of one alignment, would have required that a corner of the northwest part of the district be taken for the new highway right-of-way. We realize that the shifting of the proposed alignment was done for various reasons and to accommodate various interests in addition to those of historic preservation, but we nonetheless want to express our appreciation to your office, to INDOT, and to Qk4 for proposing to eliminate the possible direct, physical effect and for proposing to reduce somewhat the degree to which the new highway likely will have an adverse visual effect on the rural historic district.

Although it is somewhat premature to discuss mitigation of adverse effects, it appears to us that there may be ways of further reducing the new highway's visual adverse effect on the district, including possibly planting trees or other vegetation between the highway and the district. We will be glad to discuss mitigation further at the appropriate time.

The report "Review of a Rural Historic District in Deer Creek Township" identifies the Monon High Bridge and the former rail line's bermed roadbed, absent the rails, in the report's statement of significance under the transportation theme. Delphi Historic Trails submitted a March 19, 2002, letter at the March 21 meeting, in which that organization made a plea for, among other things, the preservation of the old Monon right-of-way at the point at which the new highway would cross the old right-of-way, in the hope that an Americans with Disabilities Act-accessible trail on the right-of-way could some day be constructed. The point of intersection between the proposed highway and the old Monon right-of-way is outside the boundaries of the historic district. Even so, we would ask that consideration be given to preserving appropriate access along the potential trail route between the east and west sides of the proposed highway alignment.

Thank you for your attention.

Very truly yours,

John R. Goss  
State Historic Preservation Officer

Re: Draft environmental impact statement FHWA-IN-EIS-02-02-D for the SR 25 new road construction from the I-65 interchange to US 24

Dear Mr. Juricic:

Pursuant to the National Environmental Policy Act of 1969, as amended, the Indiana State Historic Preservation Officer has conducted an analysis of the materials dated and received by the Indiana SHPO on August 29, 2002, for the above indicated project in Cass, Carroll, and Tippecanoe counties, Indiana.

This document accurately reflects the archaeological concerns expressed in earlier reviews. We will comment on the remaining archaeological concerns when the reports are submitted for review and comment.

Regarding the proposed project's impacts on historic buildings and structures, we are in substantial agreement with the draft environmental impact statement's characterizations of those impacts. We look forward to participating in future discussions of possible mitigation measures for the adverse impacts.

If you have questions about our comments, please call our office at (317) 232-1646. Questions about archaeological issues should be directed to Bill Mangold. Questions about historic buildings or structures involved in this project should be directed to John Carr at the same telephone number.

Very truly yours,

Jon C. Smith  
Deputy State Historic Preservation Officer

Ron -

LA Code 5199 Parcels 11, 12, and 15 total approximately 2.0 acres and are located Carroll County. Parcels 11 and 15 and northwest of the intersection of SR 25 and W CR 200 N and Parcel 12 is northeast of the intersection of SR 25 and W CR 200 N. LA 5199-11 was cleared in an RFI dated October 27, 2017.

[RFI LA 5199 Parcel 11 SR 25 Signed110217mm.pdf](#)

A review of the 0.5 mile search radius maps for Infrastructure, Water Resources, Mining/Mineral Exploration, Hazardous Material Concerns, and Ecological (to include endangered bat species) GIS layers did not indicate substantive changes except to water resources. The recommendations from the 2017 RFI to Parcel 11 are included as well as an evaluation for Parcels 12 and 15 (map attached):

NWI – Lines: One (1) wetland line is located adjacent to the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

Rivers: One (1) UNT to Bridge Creek is located within the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

Wetlands: One (1) wetland is located within the northern extent of Parcel 11 and in the southwestern extent of Parcel 15. No impact is expected; however, potential buyers should be informed.

In addition, no bat or other ETR species were noted within or adjacent to the subject parcels. No impacts are expected.

Please let me know if you have questions.

Re: RED FLAG INVESTIGATION  
LA 5199 Parcel 11  
SR 25, Excess Parcel  
Carroll County, Indiana

## NARRATIVE

This Red Flag Investigation (RFI) is being performed for the sale of one (1) Excess Parcel, LA 5199 Parcel 11, totaling approximately 1.778 acres. The parcel is located west along SR 25 approximately 0.74 mile west of US 421 in Carroll County, Indiana. INDOT has decided that this surplus land will not be needed for right-of-way or other transportation purposes in the foreseeable future. A legal description of the excess parcel is available in a separate document.

## SUMMARY

<b>Infrastructure</b>			
Indicate the number of items of concern found within 0.5 mile and an explanation why each item within the 0.5 mile search radius will/will not impact the project. If there are no items, please indicate N/A:			
Religious Facilities	<b>1*</b>	Recreational Facilities	<b>N/A</b>
Airports	<b>N/A</b>	Pipelines	<b>1</b>
Cemeteries	<b>N/A</b>	Railroads	<b>N/A</b>
Hospitals	<b>N/A</b>	Trails	<b>N/A</b>
Schools	<b>N/A</b>	Managed Lands	<b>N/A</b>

Explanation:

Religious Facilities\*: Although not mapped on ArcMap, one religious facility, Pine Grove Missionary Baptist Church, is located approximately 0.44 mile east of Parcel 11. No impact is expected.

Pipelines: One (1) pipeline is located within the 0.5 mile search radius. The pipeline, Northern Indiana Public Service Co., is located 0.47 mile northwest of the subject parcel. No impact is expected.

Managed Lands: No managed land features are located within the 0.5 mile search radius.

<b>Water Resources</b>			
Indicate the number of items of concern found within 0.5 mile and an explanation why each item within the 0.5 mile search radius will/will not impact the project. If there are no items, please indicate N/A:			
NWI - Points	<b>N/A</b>	NWI - Wetlands	<b>8</b>
Karst Springs	<b>N/A</b>	IDEM 303d Listed Lakes	<b>N/A</b>
Canal Structures – Historic	<b>N/A</b>	Lakes	<b>2</b>
NWI - Lines	<b>4</b>	Floodplain - DFIRM	<b>N/A</b>
IDEM 303d Listed Rivers and Streams (Impaired)	<b>N/A</b>	Cave Entrance Density	<b>N/A</b>
Rivers and Streams	<b>7</b>	Sinkhole Areas	<b>N/A</b>
Canal Routes - Historic	<b>N/A</b>	Sinking-Stream Basins	<b>N/A</b>
Urbanized Area Boundary (UAB)	<b>N/A</b>	Mitigation Sites	<b>1</b>

Explanation:

NWI – Lines: Four (4) NWI line segments are located within the 0.5 mile search radius. The closest NWI line is located adjacent to the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

Rivers: Seven (7) stream segments, associated with Bridge Creek, are located within the 0.5 mile search radius. A UNT is located within the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

Wetlands: Eight (8) wetlands are located within the 0.5 mile search radius. The closest wetland is located within the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

Lakes: Two (2) lakes are located within the 0.5 mile search radius. The closest lake is located approximately 0.17 mile east of the subject parcel. No impact is expected.

Mitigation Sites: One (1) wetland mitigation site is located within the 0.5 mile search radius. The mitigation site is located 0.36 mile north of Parcel 11. No impact is expected.

The subject parcel is not located within the Karst Memorandum of Understanding (MOU) Potential Karst Features Region. No impact to karst features is expected.

<b>Mining/Mineral Exploration</b>			
Indicate the number of items of concern found within 0.5 mile and an explanation why each item within the 0.5 mile search radius will/will not impact the project. If there are no items, please indicate N/A:			
Petroleum Wells	<b>1</b>	Petroleum Fields	<b>N/A</b>
Mines – Surface	<b>N/A</b>	Mines – Underground	<b>N/A</b>

Explanation:

Petroleum Wells: One (1) petroleum well is located within the 0.5 mile search radius. The well is located approximately 0.33 mile west of the subject parcel and is presumed plugged. No impact is expected.

<b>Hazardous Material Concerns</b>			
Indicate the number of items of concern found within 0.5 mile and an explanation why each item within the 0.5 mile search radius will/will not impact the project. If there are no items, please indicate N/A:			
Brownfield Sites	<b>N/A</b>	Restricted Waste Sites	<b>N/A</b>
Corrective Action Sites (RCRA)	<b>N/A</b>	Septage Waste Sites	<b>N/A</b>
Confined Feeding Operations	<b>1</b>	Solid Waste Landfills	<b>N/A</b>
Construction Demolition Waste	<b>N/A</b>	State Cleanup Sites	<b>N/A</b>
RCRA Generators	<b>N/A</b>	Tire Waste Sites	<b>N/A</b>
Infectious/Medical Waste Sites	<b>N/A</b>	Waste Transfer Stations	<b>N/A</b>
Lagoon/Surface Impoundments	<b>N/A</b>	RCRA Waste Treatment, Storage, and Disposal Sites (TSDs)	<b>N/A</b>
Leaking Underground Storage Tanks (LUSTs)	<b>N/A</b>	Underground Storage Tanks (USTs)	<b>N/A</b>
Manufactured Gas Plant Sites	<b>N/A</b>	Voluntary Remediation Program	<b>N/A</b>
NPDES Facilities	<b>N/A</b>	Superfund	<b>N/A</b>
NPDES Pipe Locations	<b>N/A</b>	Institutional Control Sites	<b>N/A</b>
Open Dump Sites	<b>N/A</b>		

Explanation:

Confined Feeding Operations: One (1) confined feeding operation is located within the 0.5 mile search radius. The site, Victor Brown, Agency ID No. 10298, is located approximately 0.29 mile east of the subject parcel. No impact is expected.

### **Ecological Information**

The Carroll County listing of the Indiana Natural Heritage Data Center information on endangered, threatened, or rare (ETR) species and high quality natural communities is attached with ETR species highlighted. Endangered, threatened, or rare species have not been observed within the 0.5 mile search radius. No impact is expected.

A review of the USFWS database did not indicate the presence of endangered bat species in or within 0.5 mile of the subject parcel. Lastly, an inquiry using the USFWS Information for Planning and Consultation (IPaC) website did not indicate the presence of the federally endangered species, the Rusty Patched Bumble Bee, in or within 0.5 mile of the subject parcel. No impact is expected.

## Cultural Resources

Cultural Resource information will be submitted separately.

## RECOMMENDATIONS

Include recommendations from each section. If there are no recommendations, please indicate N/A:

INFRASTRUCTURE: N/A

WATER RESOURCES:

NWI – Lines: One (1) NWI line is located adjacent to the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

Rivers: Bridge Creek is located within the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

Wetlands: The closest wetland is located within the northern extent of Parcel 11. No impact is expected; however, potential buyers should be informed.

MINING/MINERAL EXPLORATION: N/A

HAZMAT CONCERNS: N/A

ECOLOGICAL INFORMATION: N/A

CULTURAL RESOURCES: Cultural Resources information will be submitted separately.
