Eric Holcomb, Governor
Joe McGuinness, Commissioner

TO: **REAL ESTATE DIVISION, INDOT**
FROM: **RON BALES, ENVIRONMENTAL POLICY MANAGER, INDOT**
PREPARED BY: **MEGHAN HINKLE, ENVIRONMENTAL MANAGER, INDOT**
SUBJECT: **STATE CATEGORICALLY EXEMPTED PROJECT, LA 5372, PARCEL 460 (EXCESS PARCEL)**
DATE: **OCTOBER 3, 2019**

ENVIRONMENTAL CLEARANCE OF STATE FUNDED EXEMPTED PROJECTS

Under Indiana code IC 13-12-4-5, the Indiana Department of Transportation has determined certain types of projects to be exempt from the State Environmental Policy Act requirements outlined in 327 IAC 11. As this project has been determined to be excluded from the National Environmental Policy Act (NEPA) requirements outlined in 40 CFR 1502.22 (b) it meets the requirements of the State Environmental Policy Act. As long as funding, approval, and permitting requirements remain the same as reported on this form, at letting this project is exempted under 327 IAC 11-1-3, sec. 3. (e) (1). The following table demonstrates the exemptions agreed upon by the Indiana Department of Environmental Management and the Governor of the State of Indiana in accordance with 327 IAC 11, and under the authority of IC 13-12-4 and 13-14-8.

SCOPE OF WORK

INDOT and IDOA recognize that state-owned excess right-of-way exists at various locations throughout the state. This land provides no function to the state highway system in terms of serviceability or maintenance, and prohibits development of the property for productive use for residential, commercial, agricultural, or other private or public use.

Additionally, state-ownership of land may reduce the availability of real estate that is subject to property taxation; revenue which could benefit the community as a whole. Selling such excess parcels of land would benefit the above causes, as well as providing the potential for additional revenue to the state from the proceeds of the sale.

Parcel 460 is located southeast of the intersection of State Road (SR) 356 and I-69 in Pike County, Indiana. Parcel 460 is made up of 3 parcels that are approximately 0.08 acre, 0.89 acre, and 0.64 acre in size.

Statements of Disclosure:

MINING/MINERAL EXPLORATION: The eastern and western portions of 460 are located within one (1) petroleum field. The presence of this mining/mineral exploration resource should not impact the sale of the parcels. However, the buyer should be made aware that these parcels are present within the mining/mineral exploration resource, according to the GIS map.

With regard to above-ground resources, this parcel was included in the studies for INDOT Des. No. 0300378, the I-69 Evansville to Indianapolis Tier 2 project. As can be seen from the attached excerpted historic properties report (HPR) pages and the project's area of potential effects (APE) map, the identification efforts for the project did not identify any National Register eligible or listed properties on or adjacent this parcel. As can be seen on the attached mapping with aerial photography from 2016, no Indiana Historic Sites and Structures Inventory (IHSSI) properties are located near this parcel. The parcel is primarily a grassy area between SR 356 and a local road with some scrub brush vegetation. The only items that might be present on this parcel are utility poles and lines, and wire fences. We do not think that this parcel contains any historic sites or structures that its sale will impact any historic properties. No further above-ground work is recommended prior to the sale of this parcel.

With regards to archaeology, excess parcel 5372-456 has been disturbed by the construction of I-69 Section 2. In 2005, the parcel contained a ranch style house, detached garage, shed, and driveways. The 2012 aerial image shows large-scale ground disturbances associated with construction of I-69 and the house, shed, and driveways within the subject parcel have been removed. The 2012 aerial and the below streetview image demonstrate that soils in the parcel have been previously disturbed. In addition, excess parcel 5372-456 lies between excess parcels 451 and 460 that were both found to be disturbed by Baltz and McCord (2012). According to SHAARD GIS, there are no sites recorded in or adjacent to the parcel. It is recommended that the sale of excess parcel 5372-456 be allowed to proceed without additional archaeological study.

SHPO concurred on June 10, 2019.

Check all that apply	Exemption number	Project type
	1	Pipe culvert replacement
	2	Bridge painting
	3	Mowing
	4	Installation, modernization or maintenance of signs, traffic signals, pavement markings, highway lighting, and channelization within the existing right-of-way
	5	Patching and crack sealing of roadway surfaces
	6	Resurfacing existing pavement

	11	Landscaping and erosion control
	12	Safety projects such as pavement grooving, flare screen, safety barriers, and energy attenuators
	13	Addition or reconstruction of railroad crossing protection
	15	Reconstruction or replacement of an existing bridge crossing a stream, railroad, or roadway
	16	Addition of special facilities to an existing highway for the exclusive use of buses
	17	Slide correction measures which are not emergencies but are necessary to preserve the highway facility
	18	Modernization of an existing highway by widening less than a single line (sic.) width, adding shoulders, adding auxiliary lanes for climbing, turning or weaving, and correcting substandard curves and intersections

(Please check all that apply)

 X This project is to receive no federal funding, permits, approval that would lead to NEPA requirements.

 X This project does not qualify as a "Major state action as defined under 327 IAC 11-3-4.

 X Furthermore, this action fails to meet the definition of "Significantly affecting the quality of the human environment" as defined in 327 IAC 11-3-6.

These conclusions were ascertained by a study of the work type (as listed above) and the accompanying documentation.

 X INDOT approved Red Flag Investigation

 X Historical/Archeological Survey

 X Other

Concurrence:

I have reviewed the documented information and attest to the validity of this exemption based on current knowledge of the project and the existing known environment. Pursuant to 327 IAC 11-3-4, this exemption does not qualify as a “Major state action” and does not significantly affect the quality of the human environment. Therefore, the Responsible Official for INDOT, as defined in 327 IAC 11-3-5, does not need to approve this exemption.

Re: Indiana excess parcel screening form for Parcel 456 (LA Code 5372), located east of
I-69 and between SR 256 and East Jasper Road, in Section 30, Township 1 North,
Range 7 West, in Washington Township, Pike County, Indiana (DHPA No. 23885)

Dear Mr. Miller:

Pursuant to Indiana Code 14-21-1-14, the Indiana Department of Natural Resources, Division of Historic Preservation and Archaeology ("INDNR-DHPA"), has reviewed INDOT's May 3, 2019, excess parcel screening form, which we received on May 9, 2019.

Based on the information that INDOT has provided, it does not appear that there are any structures within LA Code 5372, Parcel 456, that could be eligible for inclusion in the National Register of Historic Places ("NRHP") or the Indiana Register of Historic Sites and Structures ("IRHSS").

Additionally, based on the submitted information and the documentation available to the staff of INDNR-DHPA, we have not identified any currently known archaeological resources listed in or eligible for inclusion in the NRHP or IRHSS within the excess parcel.

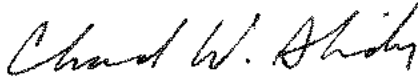

Accordingly, we do not believe that LA Code 5372, Parcel 456, in Washington Township, Pike County, Indiana, contains a historic site or a historic structure.

If any archaeological artifacts, features, or human remains are uncovered during construction, state law (Indiana Code 14-21-1-27 and Indiana Code 14-21-1-29) requires that the discovery be reported to INDNR-DHPA within two (2) business days. In that event, please call (317) 232-1646.

Please direct questions about archaeological issues to Wade T. Tharp at wtharp1@dnr.in.gov or (317) 232-1650. Questions about structures should be directed to John Carr at jcarr@dnr.in.gov or (317) 233-1949.

If there is any future correspondence about LA Code 5372, Parcel 456, in Washington Township, Monroe County, please refer to DHPA No. 23885.

Very truly yours,

Beth K. McCord
Director

2016 aerial showing location of excess parcel 5372/456 and IHSSI properties

Above-Ground Summary:

With regard to above-ground resources, this parcel was included in the studies for INDOT Des. No. 0300378, the I-69 Evansville to Indianapolis Tier 2 project. As can be seen from the attached excerpted historic properties report (HPR) pages and the project's area of potential effects (APE) map, the identification efforts for the project did not identify any National Register eligible or listed properties on or adjacent this parcel. As can be seen on the attached mapping with aerial photography from 2016, no Indiana Historic Sites and Structures Inventory (IHSSI) properties are located near this parcel. The parcel is primarily a grassy area between SR 356 and a local road with some scrub brush vegetation. The only items that might be present on this parcel are utility poles and lines, and wire fences. We do not think that this parcel contains any historic sites or structures that its sale will impact any historic properties. No further above-ground work is recommended prior to the sale of this parcel.

Archaeology Summary:

With regards to archaeology, excess parcel 5372-456 has been disturbed by the construction of I-69 Section 2. In 2005, the parcel contained a ranch style house, detached garage, shed, and driveways. The 2012 aerial image shows large-scale ground disturbances associated with construction of I-69 and the house, shed, and driveways within the subject parcel have been removed. The 2012 aerial and the below streetview image demonstrate that soils in the parcel have been previously disturbed. In addition, excess parcel 5372-456 lies between excess parcels 451 and 460 that were both found to be disturbed by Baltz and McCord (2012). According to SHAARD GIS, there are no sites recorded in or adjacent to the parcel. It is recommended that the sale of excess parcel 5372-456 be allowed to proceed without additional archaeological study.

INDOT Cultural Resources staff reviewer(s): Shaun Miller and Mary Kennedy

***Pursuant to Indiana Code 14-21-1-14, the Indiana Department of Transportation on behalf of the Indiana Department of Administration is hereby notifying the Division of Historic Preservation and Archaeology of its intent to offer for sale or transfer the property listed above and described in the attached document. We request that the division inspect the property and notify the Indiana Department of Transportation of the location of each historic site or historic property within 30 days of receipt.

Executive Summary

This Historic Property Report documents the methodology and findings of eligibility as part of the Section 106 process for Section 2 of the Interstate 69 Tier 2 Study. Above-ground resources were identified and evaluated in accordance with Section 106, National Historic Preservation Act of 1966, as amended, and CFR Part 800 (Revised January 2001), Final Rule on Revision of Current Regulations dated December 12, 2000 and incorporating amendments effective August 5, 2004.

Project historians identified and evaluated above-ground resources in consultation with the Indiana State Historic Preservation Officer and the consulting parties for this project.

There is one property listed in the National Register of Historic Places in the Area of Potential Effects for Section 2:

- Patoka Bridges Historic District

As a result of identification and evaluation efforts for this project, two individual historic properties were determined eligible for listing in the National Register of Historic Places:

- Thomas C. Singleton Round Barn (Daviess 35005)
- Chapman-Allison Farmstead (Daviess 35001)

Prepared for

Federal Highway Administration and
Indiana Department of Transportation

5.0 CONCLUSIONS AND RECOMMENDATIONS

Phase Ia survey of the Section 2 Excess Land Parcels was conducted in July and August 2012. In all, 52 Excess Land Parcels were identified. Of these, four had been completely surveyed by previous Phase Ia investigations. The survey utilized surface inspection where ground surface visibility was over 30%, walkover where slopes were over 25% or the project area was obviously disturbed, and shovel testing everywhere else. One previously recorded archaeological site (12Gi916/1189) was reassessed and three new sites (12Gi1286, 12Pi859, and 12Pi860) were recorded. All of these sites are recommended as not eligible for inclusion on the National Register of Historic Places, and no further work is recommended.

Site 12Gi916 is an Early Archaic prehistoric site that was recorded during the initial Phase Ia survey for the I-69 corridor (Hilton-Plunkett and Bamann 1996). Snyder et al. (2009) found an isolated projectile point in the same vicinity and gave it another site number, 12Gi1189. Both investigators recommended the site as not eligible. This investigation found two chert flakes attributed to the site during the survey of Excess Land Parcel 329. We concur that the site is not eligible for the NRHP.

Site 12Gi1286 is a historic farmstead site that lies within Excess Land Parcel 327. The main portion of the site, including the house and major outbuildings, was destroyed during the construction of Section 2. What remains is both recent in nature and limited in scope and is recommended as not eligible for the NRHP.

Site 12Pi859 is a historic farmstead site that lies within Excess Land Parcel 339. Historic aerial photographs suggest that the main structure associated with this site may have been destroyed by the highway construction. The portion of the site that remains is a mid-twentieth century archaeological site with little research potential. It is recommended as not eligible for the NRHP.

Site 12Pi860 is a small prehistoric and historic site located on an eroded ridgetop that is split by a county road. This low-density site of unknown age provides little research potential. As such, Site 12Pi860 does not meet minimum criteria for inclusion on the NRHP.

Re: Narrative information about above-ground properties in the vicinity of the proposed I-69 Section 2 Excess Land Parcels in Gibson, Pike, and Daviess Counties, Indiana and an addendum archaeological report entitled "I-69 Corridor Tier 2 Studies, Evansville to Indianapolis, Addendum to Phase Ia Archaeological Investigations, Section 2 (SR 64 to US 50), Excess Land Parcels, Gibson, Pike, and Daviess Counties, Indiana" (McCord 10/1/12) (no LA CODE provided; related to Des. No. 0300378; DHPA No. 14301)

Dear Ms. Zeigler:

Pursuant to Indiana Code 14-21-1-14, the Indiana Department of Natural Resources, Division of Historic Preservation and Archaeology ("DHPA") has reviewed your December 11, 2012 cover letter and the addendum archaeological report, both of which we received on December 14, 2012, for the aforementioned excess land parcel investigations in Gibson, Pike, and Daviess counties in Indiana.

Your cover letter indicates that there are 73 excess parcels covered by this submission, which have been grouped into 54 numbered parcels. The addendum archaeological report (McCord 10/1/12) mentions 52 numbered parcels, and a January 16, 2013, e-mail message from Michael Elsner of your firm explained why the two documents differ in that respect and where parcels that are covered in one document but not in another have previously been evaluated.

Based on the information provided, we agree that there are no known above-ground properties (e.g., structures) that are listed in or eligible for inclusion in the National Register of Historic Places or the Indiana Register of Historic Sites and Structures within any of the 54 numbered parcels. The excess parcels in question presumably would have been within the area of potential effects that was considered previously in the historic property report for I-69 Section 2 (Des. No. 0300378). The photographs in the archaeological report do not appear to indicate the presence of historic structures within the parcels.

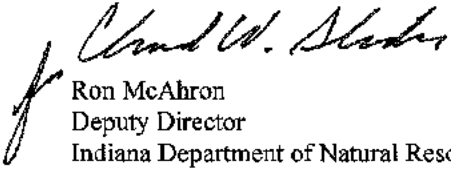

In regard to archaeology, based upon the information submitted and our analysis, no currently known archaeological sites listed in or eligible for inclusion in the National Register of Historic Places or the Indiana Register of Historic Sites and Structures exist within the excess parcels for this submission.

If any archaeological artifacts, features, or human remains are uncovered during construction, state law (Indiana Code 14-21-1-27 and -29) requires that the discovery must be reported to the Department of Natural Resources within two (2) business days. In that event, please call (317) 232-1646.

If you have questions about archaeological issues, please contact Dr. Rick Jones at (317) 233-0953 or rjones@dnr.IN.gov. If you have questions about buildings or structures, please contact John Carr at (317) 233-1949 or jcarr@dnr.IN.gov. In any

future correspondence regarding the 54 numbered I-69 Section 2 Excess Land Parcels in Gibson, Pike, and Daviess Counties, Indiana, please refer to DHPA No. 14301.

Re: RED FLAG INVESTIGATION
LA Code: 5372, Excess Parcels 451, 460, & 464
I-69 Section 2
Pike County, Indiana

NARRATIVE

This Red Flag Investigation is being performed for the sale of multiple excess parcels. The Indiana Department of Transportation (INDOT) has decided that this surplus land will not be needed for right-of-way, transportation, or other operational purposes. The parcels are located off of I-69 in Pike County, Indiana. The properties were purchased for the construction of I-69 Section 2. Parcel 451 is approximately 0.17 acre in size, Parcel 460 is made up of 3 parcels that are approximately 0.08 acre, 0.89 acre, and 0.64 acre in size, and Parcel 464 is approximately 0.15 acre in size. INDOT now seeks to sell these 5 parcels totaling 1.93 acres.

Parcel 451, the southern portion of Parcel 460, and the eastern portion of Parcel 460 are located in the northwest corner of Section 30, Township 1 North, Range 7 West.

Parcel 464 and the western portion of Parcel 460 are located in the northeast corner of Section 25, Township 1 North, Range 8 West.

SUMMARY

Infrastructure Indicate the number of items of concern found within ½ mile, including an explanation why each item within the ½ mile radius will/will not impact the project. If there are no items, please indicate N/A:			
Religious Facilities	1	Recreational Facilities	N/A
Airports	N/A	Pipelines	3
Cemeteries	N/A	Railroads	N/A
Hospitals	N/A	Trails	N/A
Schools	N/A	Managed Lands	N/A

Explanation:

Religious Facilities: One (1) religious facility is located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. The one (1) religious facility in the 0.5 mile search area is located 0.03 mile west of Parcel 464. No impact is expected from the sale of the subject parcels.

Pipelines: Three (3) pipelines are located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. Of the three (3) pipelines in the 0.5 mile search area, the nearest is located 0.20 mile east of Parcel 464. No impact is expected from the sale of the subject parcels.

Park Lands: No park lands are located in or adjacent to the subject parcels.

Water Resources Indicate the number of items of concern found within ½ mile, including an explanation why each item within the ½ mile radius will/will not impact the project. If there are no items, please indicate N/A:			
NWI - Points	1	NWI - Wetlands	11
Karst Springs	N/A	IDEM 303d Listed Lakes	N/A
Canal Structures – Historic	N/A	Lakes	8
NWI - Lines	2	Floodplain - DFIRM	N/A
IDEM 303d Listed Rivers and Streams (Impaired)	N/A	Cave Entrance Density	N/A
Rivers and Streams	8	Sinkhole Areas	N/A
Canal Routes - Historic	N/A	Sinking-Stream Basins	N/A

Explanation:

NWI – Points: One (1) NWI point is located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. The one (1) NWI point in the 0.5 mile search area is located 0.30 mile northeast of Parcel 464. No impact is expected from the sale of the subject parcels.

NWI – Lines: Two (2) NWI lines are located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. Of the two (2) NWI lines in the 0.5 mile search area, the nearest is located 0.41 mile northwest of Parcel 464. No impact is expected from the sale of the subject parcels.

Rivers and Streams: Eight (8) rivers and streams are located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. Of the eight (8) rivers and streams in the 0.5 mile search area, the nearest is located 0.18 mile southeast of Parcel 451. No impact is expected from the sale of the subject parcels.

www.in.gov/dot/

An Equal Opportunity Employer

NWI – Wetlands: Eleven (11) wetland areas are located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. Of the eleven (11) wetland areas in the 0.5 mile search area, the nearest is located 0.02 mile north of the eastern portion of Parcel 460. No impact is expected from the sale of the subject parcels.

Lakes: Eight (8) lakes are located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. Of the eight (8) lakes in the 0.5 mile search area, the nearest is located 0.17 mile northwest of Parcel 464. No impact is expected from the sale of the subject parcels.

The subject parcels are not located within the Karst Memorandum of Understanding (MOU) Potential Karst Features Region. The sale of the subject parcels is not anticipated to impact any karst features.

Mining/Mineral Exploration			
Indicate the number of items of concern found within ½ mile, including an explanation why each item within the ½ mile radius will/will not impact the project. If there are no items, please indicate N/A:			
Petroleum Wells	21	Petroleum Fields	1
Mines – Surface	2	Mines – Underground	1

Explanation:

Petroleum Wells: Twenty-one (21) petroleum wells are located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. Of the twenty-one (21) petroleum wells in the 0.5 mile search area, the nearest is located 0.08 mile northeast of the eastern portion of Parcel 460. No impact is expected from the sale of the subject parcels.

Mines – Surface: Two (2) surface mines are located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. Of the two (2) surface mines in the 0.5 mile search area, the nearest is located 0.43 mile southeast of Parcel 451. No impact is expected from the sale of the subject parcels.

Petroleum Fields: One (1) petroleum field is located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. Parcels 464 and the eastern and western portions of 460 are located entirely within the one (1) petroleum field in the 0.5 mile search area. No impact is expected from the sale of the subject parcels. However, the buyer should be made aware that the parcels are present within the petroleum field, according to the GIS maps.

Mines – Underground: One (1) underground mine is located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. The one (1) underground mine in the 0.5 mile search area is located 0.05 mile south of Parcel 451. No impact is expected from the sale of the subject parcels.

Hazmat Concerns			
Indicate the number of items of concern found within ½ mile, including an explanation why each item within the ½ mile radius will/will not impact the project. If there are no items, please indicate N/A:			
Brownfield Sites	N/A	Restricted Waste Sites	N/A
Corrective Action Sites (RCRA)	N/A	Septage Waste Sites	N/A
Confined Feeding Operations	N/A	Solid Waste Landfills	N/A
Construction Demolition Waste	N/A	State Cleanup Sites	N/A
Industrial Waste Sites (RCRA Generators)	N/A	Tire Waste Sites	N/A
Infectious/Medical Waste Sites	N/A	Waste Transfer Stations	N/A
Lagoon/Surface Impoundments	N/A	RCRA Waste Treatment, Storage, and Disposal Sites (TSDs)	N/A
Leaking Underground Storage Tanks (LUSTs)	N/A	Underground Storage Tanks	N/A
Manufactured Gas Plant Sites	N/A	Voluntary Remediation Program	N/A
NPDES Facilities	N/A	Superfund	N/A
NPDES Pipe Locations	N/A	Institutional Control Sites	N/A
Open Dump Sites	N/A		

Explanation: No hazmat concern items are located in the 0.5 mile search radius.

Ecological Information

The Pike County listings of the Indiana Natural Heritage Data Center information on endangered, threatened, or rare (ETR) species and high quality natural communities is attached with ETR species highlighted. A review of the Indiana Natural Heritage Database did not indicate records of any ETR species in the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. A review of the *I-69 Evansville to Indianapolis, Indiana Project Section 2, Oakland City to Washington, Indiana: Tier 2 Final Environmental Impact Statement* revealed that several federally endangered and several state listed species were identified in Section 2. However, none of these species were located within the 0.5 mile search radius of the parcels included in this portion of LA Code 5372. The sale of these parcels is not expected to impact ETR species or high quality natural communities.

Cultural Resources

The *National Register of Historic Places* (National Register) and *Indiana Register of Historic Sites and Structures* (State Register) were checked using the State Historic Architectural and Archaeological Research Database (SHAARD) and no properties in either list are located within the vicinity of the parcels. The Indiana Historic Bridge Inventory Volume 2: Listing of Historic and Non-Historic Bridges (February 2009) by Mead & Hunt was reviewed. No bridges eligible for listing in the NRHP are within the parcels.

Excess Parcels 451, 460, and 464 are within the Area of Potential Effect (APE) for I-69 Section 2 and were reviewed as part of the Section 106 consultation for that project. The closest potential historic resource, (the Alfred United Methodist Church), is approximately 0.02 mile from the Parcel 464. This resource was determined to be not eligible. A letter was sent to the SHPO on December 11, 2012 and the SHPO indicated they did not have any concerns with the sale of the parcels in a letter dated January 22, 2013. Archaeology clearance was completed by Gray & Pape, Inc. on October 1, 2012, and a report sent to the SHPO on October 1, 2012. The SHPO concurred with the archaeology report on January 22, 2013. The sale of these parcels is not anticipated to impact any historic properties.

RECOMMENDATIONS

Include recommendations from each section. If there are no recommendations, please indicate N/A:

INFRASTRUCTURE: N/A

WATER RESOURCES: N/A

MINING/MINERAL EXPLORATION: Parcels 464 and the eastern and western portions of 460 are located entirely within one (1) petroleum field. The presence of this mining/mineral exploration resource should not impact the sale of the parcels. However, the buyer should be made aware that these parcels are present within the mining/mineral exploration resource, according to the GIS map.

HAZMAT CONCERNS: N/A

ECOLOGICAL INFORMATION: N/A

CULTURAL RESOURCES: N/A
